Security & Geo-Rights Management Community

Welcome to the 52North Security & GeoRM Community! We provide ready-to-use software as well as prototype implementations to enable business and access control process for geospatial services and spatial data infrastructures.

Quick Links

▸ Download WSS 2.2 alpha 1 with support for WMS, WFS, SOS, WPS [Download...](#) [User guide...](#)
▸ Download stable WSS 2.1.0-1. [Download...](#)
▸ New Security API 2.0.8 released on May 6th. *[Learn more...](#)*
▸ OSW-6 results online. *[View tutorial...](#)*

Independent & flexible access control for geo-spatial services

With 52North security services you can easily restrict access to spatial services, including

▸ Web Mapping Service (WMS)
▸ Web Feature Service (WFS)
▸ Sensor Observation Service (SOS)
▸ Web Processing Service (WPS)
